- ✓ High productivity

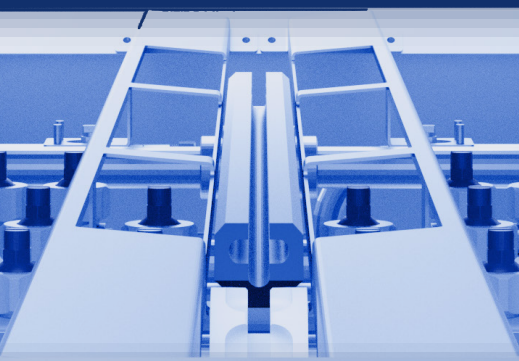

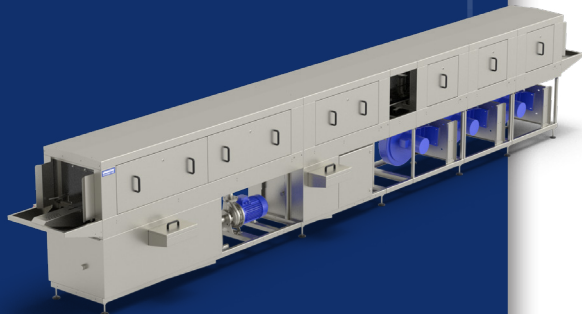

EXCEPTIONAL WASHING SOLUTIONS

UNIKON offers the solution

UNIKON has been supplying **washing and drying machines** worldwide since 1968. Thanks to these years of experience we know what the **specific needs** of your branche are. We develop, manufacture, sell and maintain industrial washing machines and dryers **worldwide** from our site in Barneveld, the Netherlands.

With a **UNIKON** machine you not only clean hygienically but also **environmental friendly**. Our machines use considerably less water, chemicals and energy and are 100% recyclable.

ECO-Modular

The ECO-modular, the name says it all, consists of a number of standard modules suitable for the most common washing needs. Thanks to the application of these standard modules, the price can be kept low while the productivity is high. Depending on the number and type of products to be cleaned, the contamination and the desired end result, the machine is assembled. Pre-wash, main wash, rinse and blow drying can be selected according to your requirements. Even at a later stage - when the machine is already in use - modules can be added to increase the washing and drying capacity. In this way, the washing machine can grow along with your business and you do not need to invest immediately to the maximum.
